Telegrams.

(By Havas Agency.)

Brussels, Jan. 26th—On account of the thawing of the snow which had for some days past fallen heavily, nearly all the rivers have overflowed their banks and have flooded the country, causing very heavy damage; an enormous number of people are at the present moment actually homeless.

The floods are daily assuming larger proportions, but, up to the present, it is impossible to ascertain the number of victims, which, it is feared, is very great. Subscriptions are being everywhere organised.

Vienna, Jan. 20th—The Austrian Parliament was dissolved to-day by Imperial decree, no date being fixed for the election of the new Parliament.

Madrid, Jan. 26th—There is great excitement throughout Spain on account of the elections for the Cortes, which will be held on Sunday next. The Liberal papers consider the success of their party assured.

ARGENTINA AND BRITANNIA.

London, Dec. 24th.

The Bank of England, says the *Times* has made a large advance in hard cash on the Argentine securities or a portion of them that were held in the Barings' safe. The amount is not stated, but the increase in "other securities" in the weekly statement of the Bank is £1,250,000, and this is therefore assumed to be more or less the sum invested in Argentines at this critical period. The Bank at any other time would have hesitated to advance one-tenth part of that sum on the said stocks, and the act is not prompted by any generous feeling towards the people of Buenos Ayres, but is simply an inevitable consequence of the paternal interest taken in the Barings. It is the first direct result of the Siamese Twins business, and will perhaps be followed by others of a similar kind.

Some of the particulars published this week in the columns of the *Times*, regarding the dealings of a certain house in Buenos Aires with the Barings will be read with interest in your city. We are, however, still left in the dark as to the amount of Argentine securities of all descriptions held by that firm. This is precisely what everybody wants to know. Perhaps, it will be revealed some day. The *Times* is of opinion that Lord Revelstoke lost his head, and became apprehensive that the Germans might get between him and the favorable investments that were going.

It must be confessed that people here are beginning to get tired of all this "barullo" about Barings, Dr. Plaza, Cedulas and the doings of the Argentine Congress. They would rather now hear something about the new coal developments in China, or the arrangement of difficulties between the Czar and his Jewish subjects. The *Times* of to-day hints that the conversion of Cedulas has fallen through, and Lord Rothschild's scheme of suspending the Argentine debt for three years is practically forgotten. A gloomy foreboding has settled on the minds of the bondholders; and as for Cedulas some issues fell yesterday to seventeen and a half, that is eighty-two and a half per cent discount. To make matters worse the *Times* says that the Argentine Government owes the National Bank seventy million dollars. Meantime, we have telegrams of proposed new taxes on bank deposits at Buenos Aires, as if that be calculated to improve a position so complex and unsatisfactory. New taxes at a period of depression are condemned by economists.

It was all but a dream at the best as regards the wonderful prosperity of Argentina in the last six years. Inflation began with the suspension of specie payments; it rose to a dangerous height with repeated issues of shin-plasters, and now the bubble is burst. You might, indeed, still postpone the hour of bitterness by another issue of 100 millions, and repeat the experiment every three months for two or three years longer. But as matters would grow worse the issues would needs be larger, until at last 50 millions a month would be required to keep the ball rolling. The moment you stop fresh issues of shinplasters everything must come to a deadlock, then a liquidation or Moratorio for all classes of men and madness.

Remember that the hour of liquidation must come, and that the more paper money emitted the more terrible the trial. You have at this moment only two policies to choose from. If you stop short and try to remedy the follies of the last five years by solemnly declaring the Free Banks and the repeated issues of paper money errors of statemanship, it will be easy to commence a policy of reparation and re-construction. If you will not adopt that view, it is inevitable that you continue fresh issues of shinplasters, and Heaven only knows the consequences.

CONGRESS.

SITTING OF THE SENATE.

FINALE OF THE FINANCIAL BILLS.

THE LEASE OF THE CITY IMPROVEMENTS.

GENERAL ROCA'S SPEECH.

REDUCTION IN SALARIES PUT OFF.

At half-past nine sharp, for a wonder, the honorable Senators met, Dr. Derqui in the chair. After the usual proceedings, the secretary read out the amended bills sent up for revision from the Deputies.

Senator Rojas, who appears to be the moving genius of the Senate, moved that the House go into Committee to settle all the matters in the Order of the Day, especially the repeal of the City Improvement Works' Lease and the Bill for the reduction in salaries of civil and military servants. Put to the vote, Senator Rojas' motion was carried in spite of the opposition of Senator Cortes.

The excise on alcohol was taken up. It will be remembered that the original bill of the Executive provided for a tax of 15 cents per litre: this tax the financial committee of the Deputies reduced to 8 cents; in the debate, the House of Deputies reduced it to 7 cents. The Senate took the bill up from the Deputies and increased the tax to 10 cents; sent back for revision to the Deputies, it was again reduced to 7 cents., thanks to Deputy Molina and Deputy Canton's stirring opposition. The Bill, sent back again yesterday to the Senate, was not even discussed: Senator Rojas begged to insist on the ten cents per litre tax, and carried his point. Thus the tax goes again to the Deputies fixed at 10 cents per litre of 36 o Cartier.

Then came the tax on the profits of private banks. The "via crucis" of this tax is interesting. In the original Bill of the Executive 7 o/o was fixed and endorsed by the financial committee of the Deputies: in the debate, the Minister of Finance stated that he had received telegrams from bankers in London asserting that they would rather pay 10 o/o on their profits than see the deposits taxed 2 o/o per annum. With admirable logic and with all the venom he nurtures against the private banks, the Minister proved that the tax on deposits did not fall to the bankers, and that since the bankers were able to pay 10 o/o on their profits, it was by all means desirable that the 7 o/o tax be raised to 10 o/o on all profits of private bankers; The Minister's proposal was carried "nem con." The Bill then went to the Senate, but under the tremendous fire of Senator Cortes's logic, the tax was reduced to 7 o/o; sent back again to the Deputies, the Lower House insisted on the 10 o/o tax. Revised by the Senate yesterday the whole Senate in a body insisted on the 7 o/o tax. The bill, therefore, now fixing 7 o/o on the profits of private banks, in spite of the Minister of Finance, must go back to the Deputies.

The amendment of the Deputies, throwing out the additional fifteen cents per kilo on imported wooden matches was accepted. Senator Rocha proved to satisfaction that such an additional duty would be unjust, as the whole burden would fall on the poor people, the only consumers of such an inferior article.

The License Bill was then taken up The amendment of the hypercritical Deputies in the wording of the first article was thrown out. The tax on ball-alleys, thrown out by the Deputies, was not insisted on by the Senate; thus the ball-alleys are now only taxed by the Municipality.

With regard to the tax of one dollar per head on the export of horned cattle, excepting animals sent across the Andes or the Ocean, the Senate insisted on same, thus defeating the deputies, who may re-insist on the abolition of the tax.

The Senate then entered into Committee to discuss the repeal of the City Improvement Works' Lease. The Minister of the Interior, General Roca, entered the House and took his seat on the Ministerial Bench. The Secretary read out the Message and Bill of the Executive.

Senator Cortes opened the discussion with some very favorable comments on the negotiation. He maintained that the operation was a great relief to the people of Buenos Ayres and should be approved by the Senate. The conditions, he added, under which the lease had been revoked could not be more advantageous.

The Minister of the Interior joined the discussion, pointing to the ominous fact that the people of Buenos Ayres, though living on the banks of one of the greatest rivers in the world, had to pay for water in its weight in gold; not only the citizen but the Municipality was subjected to this heavy burden. These statements of the Minister reminded one forcibly of previous assertions he had made with regard to the millions the State threw away in reclaiming a few squares of ground from the river when it had thousands upon thousands of leagues of deserted and wealthy territory going abegging in the market. H. E. stated that in the future, when the works were in the possession of the State, the citizens of Buenos Ayres might exclaim in the words which Senator Cortes had put into the mouth of the poor old woman of Cordoba: "Thanks be to God that this water has not filtered through the hands of the 'pulpero'!" The Minister then showed all the drawbacks attending the present lease of the works and the many deficiencies resulting therefrom. After a lengthy study of the question, the Minister entered into details of the negotiation, produced an array of figures, familiar to the reader, and read out the telegrams in this respect from the National Commissioner, Dr. Victorino de la Plaza.

The business of Committee at an end, the Senate resumed its ordinary functions. The City Improvements Bill was put to the vote and passed unanimously. All the articles of the Bill were then voted and sanctioned; the fourth article gave rise to a lively discussion between the Minister and Senator Rocha, but the Bill was passed without any modifications. It is, therefore, law as it stands.

After lengthy discussion, it was resolved to put off the Reduction of Salaries till the Ordinary Session of Congress next May. The Senate then held a secret sitting.

SITTING OF THE DEPUTIES.

The Deputies mustered strong at half past three yesterday, Dr. Zorilla in the Chair. The sitting did not last long, as all were in a hurry to get away. The House insisted on the following points in the financial bills:—

1. Abolition of the export tax on cattle.
2. Reduction of excise on alcohol to 7 cents per litre 35° Cartier.
3. Increase to 10 o/o of the tax on the profits of the foreign private banks.

It was agreed not to insist on the other amendments.

The Chairman then declared the Extraordinary Session at an end.

FINIS.

THE CHILIAN REVOLUTION.

The latest news from our transandine neighbor is important. The Government is displaying considerable activity. Major Stephen, at the head of 400 men, has arrived at Ovalle, where he expects to be reinforced by Colonel Wood and 2000 men. Colonel Robles, at the head of 2000 others is marching towards the same town, which will thus have a formidable detachment. These movements point to the decision of the Government to recover lost ground. In Iquique, according to the latest advices, the garrison holds out, and it appears, from the accounts of passengers by the steamer Bolivia, that the provinces of Tarapaca, Antofagasta and Atacama are undisturbed. The Government has money enough to pay all expenses for the next four months.

The foreign consuls in Iquique have filed a protest against the blockade.

On the 18th the Esmeralda bombarded Coronel. A shell fell into the office of the manager of the English Railway, but, as it did not explode, Mr. Emderson, the manager, who was sitting at his desk at the time, was not injured. Another shell fell on the roof of the residence of the Swedish Consul. The Esmeralda tried to destroy the Playa Negra Bridge and fired on a passing train, killing many of the passengers and wounding others.

The Cochrane and Magallanes are still blockading Iquique. The garrison in that town numbers 2000 men. As Iquique can only be supplied with provisions through the port, it is calculated the garrison will be starved out. The town has provisions for 25 days.

The ships that were blockading Valparaiso have weighed anchor and steered for Coquimbo, where the contending forces will probably fight. The revolutionists are one thousand strong and are besides supported by the fleet.

In regard to the Government forces they number in all 15,000 men; scattered in different divisions. The maintenance of these forces costs the Government 200,000 dollars per diem.

Mr. Alfred Puelema Tupper, C.E., has been arrested on a charge of endeavouring to suborn an officer.

News has been received of a severe encounter at Caldera, but no particulars are yet known.

The Valparaiso garrison is 3000 strong: the coast has been fortified and every precaution to prevent the landing or embarking of revolutionists taken.

Such, briefly, is the substance of the latest news from Chile. We may add that the feeling of the Government against the revolutionists is so strong that its organs do not hesitate to say that the blood of all the leaders of the revolution will not be sufficient to compensate for the insults levelled at the country. The *Comercio* of Valparaiso, which is a Government organ, states that the properties and fortunes of the revolutionists should be confiscated and distributed in the army. At the same time it talks of the destruction of the fleet—the pride of Chile—and as Government have not the means to destroy it, the task must be left to the foreign powers.

An idea of the prevailing animosity may be gathered from the angry tone of that newspaper, which talks so loudly of destroying Chile's fleet. Another paper qualifies the fleet as pirates.

The revolutionary fleet, however, cannot, even though outlawed, be ranged under the category of pirates. It carries the Chilian flag, it obeys a Chilian Congress, and it carries with it the moral support of a good many Chilians.

How and when is it all to end?

THE BOCA.

The General Meeting of the International Demurrage Club was held at 925 Calle Pedro Mendoza on January 7th, under the presidency of Mr. Charles H. Reynolds, and was well attended by members of the Club now in port.

The proceedings were opened by the president, who after briefly explaining the position and influence gained by the Club, called upon the secretary to read his report.

Mr. J. Schonberg, the secretary, said that since the General Meeting, in July, 1890, the International Demurrage Club had done some useful work in the interests of the shipping of Buenos Aires. This Club was founded in July, 1889, by about 60 shipmasters of all nationalities who frequent this port, for mutual assistance and protection and in the interests of shipping in general in the port of Buenos Aires.

At the time of its foundation, when there were many vessels in port, ship masters found that the merchants of Buenos Aires, with very few exceptions, entirely ignored the stipulations of their charter-parties, as regards clauses referring to the time for discharging their vessels and their demurrage.

During the last six months much valuable assistance has been rendered to members, more particularly as regards the discharge and quick despatch of vessels in accordance with charter-parties, and the Club has collected £600 for members on demurrage, making with the previous collection, a total amount of £1776, plainly showing that demurrage can be recovered in Buenos Aires, in spite of the poohpoohing of merchants.

In the following cases, proceedings had to be carried to the Federal Court with the following results:—

	£	s	d
Brit. ship Hannibal obtained...	286	2	5
Nor. do. Aviemore do.	135	11	8
Do. bq Vigeland do............	37	7	2
Do. do Superb do..............	86	11	0
Do. do. Fredsal do.............	45	0	2
Brit. do Junak do..............	19	1	3
	£609	13	8

In none of the cases was the full amount claimed obtained, as the Club, taking into consideration the unsettled state of the country, more especially in a financial sense, preferred arranging matters in an amicable matter, and for that reason the Committee resolved not to deduct from the sums recovered the 10 per cent for the funds of the society, as stipulated in Art. 9 of the By-laws.

The cases of the Harriet, Carmel, Candidate and Mary Elizabeth, now before the Courts, will, it is hoped, soon be satisfactorily settled.

One of the most serious abuses noticeable in this port and to which the attention of the Club has been particularly directed, is in the delivery of coal, which invariably turns out "short," as compared with the intake of bill of lading quantity. In some cases it has amounted to 7½ per cent, involving considerable loss or diminution of the expected profit of the voyage. This grievance was discussed at a meeting of the Committee held in October last, when it was agreed that the wiser plan would be to employ at the ship's expense a weigher to deliver the coal, instead of the merchant alone sending his weigher aboard to weigh out the coal. The Club, consequently, undertook to provide honest and trustworthy weighers for members of the Club, and some of them are now working on board vessels in port.

The secretary then called attention to the balance sheet, which showed that the club had, after paying all expenses, a balance in hand of $1942.38. The club has been joined by three hundred and forty-eight vessels, representing a total register tonnage of 222,834 tons.

A motion of Captain G. Davies, of the British bark Magnolia, was carried for amending Art. 6 of the by-laws, so that vessels entering port more than once in a year, and joining the club each time, may obtain some reduction in the contribution.

It was also resolved on the proposition of Captain J. Lundegaard, of the Norwegian bark Dronning Sophie, to send circulars to foreign shipowners giving information about the club, so as to induce their captains to join it.

As regards the legalisation of the club it was resolved to take no further steps in the matter at present, on account of the heavy expenses which would be incurred.

The meeting was then dissolved after a vote of thanks to the chairman.—*Herald.*

LETTER FROM VESPASIAN WILDE.

EUROPE PLAYED OUT.

CHRISTOPHER COLUMBUS. WHO HE WAS AND WHAT HE DID.

My kind Admirers,

I could not refuse your gracious request to honour your paper with a letter describing my tour in Europe and its analogous impressions; but you must not take it ill if I tell you things that may wound your love of your native country. No, my friends, your Europe is the poorest thing in the world, and we in the Boca have palaces and monuments not to be dreamt of in Europe. In Europe you die of hunger: in a word, I have noticed Cabinet Ministers there, after several years of office, return to private life poorer than when they entered the Ministry.

What a shame! Your army is a foolish business; there are few Generals and many private soldiers, whilst with us, where there is a true military spirit, the private soldier is almost unknown; and so it is that one who respects himself is at least born a Colonel, and if fortunate enough to lose a battle or lead a revolution there is no delay in making him a General. What a row there is about your museums, statuary, pictures and other trifles. Truly I have seen very beautifully gilt frames, but the canvas to me seemed too coarse even for sheeting, and as to the statuary it seemed so clumsy that I would much prefer that of terra-cotta in Gualeguaychu.

As to panoramas—hide your head. Naples is a mystery, and its Vesuvius smokes now and again like the educated seal to be seen at the San Martin Theatre. Constantinople resembles our Bahia Blanca, but is not so splendid. Paris is more or less like San Luis, as there they always speak of "louis." I knew Vienna at Genoa, in the Caffe delle Viennesi, where that handsome girl is you are certain to see in America, if she have the luck to meet our Minister to Paris. As to Berlin I found nothing good about it but the Prussian blue. And now, would you like a proof of the great misery in which your European States are plunged. Throughout my entire journey there were always requests to obtain aid from my generosity. Lord Salisbury said to me: "My friend, since the little "krach" of Baring, if you do not help us we are ruined." I promised to send him notes of the Catamarca Bank. Sardou said to me at Paris, "Poor Dumas and I are done up. The whole 'Comedie Francaise' are sure to die of want." I added, "Do not fear. Put Racine Shakespeare and those silly things to sleep, and I shall send you 'Martin Fierro' from Buenos Ayres." "My great protector," whimpered Moltke, "my army, is disbanded; there is no more discipline." "Then you shall soon have a couple of Generals from our army."

Castelar said—"The cause of the Republic is lost if—if." "I do not send you the decrees of the U. C. You shall have them. Do not forget," suggested in his sleeve Francisco Crispi, "we are without labourers." "Oh! as to that, let Roca go on. Two months more of his Government and 500,000 labourers will arrive from America for you."

But the Emperor of Russia accompanied me to the door, thus defying the risk of a bad cold, and murmured while kissing hands, "Your Excellency, I am dishonoured," as Radames says in the third act of "Aida." "The Nihilists have gone to amuse themselves at Paris and Genoa; how can I save the reputation of Holy Russia?" I thought for a moment. Then raising up the worthy man, who had humbly embraced my knees, I said, "Do not be in the least discouraged, the resources of my country are very great. You want Nihilists. I can suit you to a T, and will send you Juarez Celman and his party."

You will understand, kind readers of the *Operaio*, that in the face of such misery I have not found in Europe one palace worth a stone of the grotto in Plaza Constitucion, nor one picture that the *Mosquito* could not produce better, or one church, beginning with St. Peter's down to St. Mark's, that is not inferior to our San Nicolas; not one Minister as rich as ours; nor could I ferret out in the University half as many distinguished doctors of law, medicine and divinity as we have in Buenos Aires; so I could only exclaim, "And this is the part of the world that has bestowed enlightenment on my country. Impossible!"

And so, my friends of the *Operaio*, I wish to tell you something you evidently do not know. I have travelled through Italy and Spain, searched among the archives of the convents and in the baskets of the cheesemongers, and thus I have found out that your histories have been and are a parcel of lies, and that Christopher Columbus was an American from Buenos Aires who discovered Europe in 1492.

Yours faithfully,
Vespasian Wilde.
Operario Italiano.

CLASSIFICATION OF GRAIN.

Buenos Ayres, 26 Jan. 1891.

To the Editor of the STANDARD.

Dear Sir,

In reply to the second letter of "Experience," I must point out that Associations in Europe do not dictate to the grain trade on what terms wheat should be bought, their business being to settle disputes and to act as a Court of Appeal on differences of quality; but buyers will readily accept as a basis of contract a recognised certificate of grade that will define the quality they buy and, although they will at first demand 'fair average quality of the grade' afterwards, when they find that inspection is properly done, they will buy on the certificate of grade without the fair average quality clause and shippers will be relieved from claims for allowances that are now an anxiety for months after a vessel sails.

Buyers are well aware that the standards of grades vary with every crop and are lower at the end of every season than at the beginning, and if they know the average weight per bushel of the first standards they can estimate quality very closely at once without waiting for the actual samples.

River Plate wheat is naturally of far more uniform quality than that of most countries, and this is especially the case with Santa Fe wheat, which comprises ⅔ of the export, and its irregularity comes entirely from want of care in harvesting, bringing to market and shipment.

No other country sends its produce abroad in such bad condition, and no other wheat is shipped in such a haphazard way or arrives so unsound.

The present customs of trade are not conducive to any improvement, because farmers get advances on their crops, and they get no extra price for good wheat.

If the receiver of a careful shipper rejects a bad lot he may get nothing, and there is generally at hand a buyer of less careful shippers who will take it.

The want of any recognized standard of quality for settlement of differences is a direct temptation to carelessness if not dishonesty, and the result is that careful shippers suffer from the depreciated value of good cargoes because the bad cargoes lower the average of a crop, and it is quite impossible to show the sample of a particular cargo in every market.

"Experience" will find on enquiry that Indian wheat is invariably sold to arrive on classification, although the risk of damage from "weevils" on voyage is very great. Whereas River Plate wheat if shipped in proper condition does not deteriorate and in ordinary seasons is quite fit for shipment in bulk (if properly cleaned); and I may remark that the longer the voyage the greater the necessity for care in shipment, and the greater the reason for a buyer to ask for some guarantee before he engages to pay for a cargo that it was not unsound when shipped.

Buyers in Europe know quite well what they want (sound wheat of regular quality) and are quite prepared to pay a better price to get it, and my contention is that if damaged wheat is eliminated the average value will be greatly raised and a trade conducted on proper lines will pay better, and encourage agriculture.

"Experience" has made a fanciful calculation based upon a difference in values that does not occur in any of the known grades of wheats, and I think it will be found that 75 per cent of the wheat of Santa Fe would fall into grade No. 2 and sell for 1 to 2s. per quarter over unclassified. No. 3 being sound would sell at an equal price and there would be a gain on No. 1. In fact, the total increased value would easily amount to 1s. 6d. per quarter—a considerable percentage on the first cost of wheat.

I really cannot argue about the morality of speculation, but I can assure "Experience" that it will be very difficult to work a corner in the Argentine Republic, and the syndicates who try to work a corner almost invariably suffer ultimately, where as consumers benefit, as the Egyptians did in the days of Joseph.

Yours truly
William Goodwin.

HURLINGHAM RACES.

B. Ayres. Jan. 24th, 1891.

To the Editor of the STANDARD.

Dear Sir,

Apologizing for further prolonging a somewhat washed-out discussion, I should esteem it a favour if you would allow me, through the medium of your valuable paper, to offer a suggestion which, in my opinion, would tend to bring the question down to a common centre.

It is evident, from the correspondence interchanged, that there are two contending parties, "light weights" and "heavy weights", and that "Handicapper" in his endeavors to please both has "fallen between two stools".

Now, why not persuade the Hurlingham Committee to establish an acknowledged standard of weight for ponies, galloways, "et hoc genus omne"? Take, for instance, something akin to the following:—

58 inches,	maximum	75	kilos.
56 do,	do	70	do.
54 do,	do	65	do.
52 do,	do	60	do.,

with the usual allowance per inch in each case, and the usual penalties for winners. Added to these classes, create a special one of 600 to 800 metres for ponies not exceeding 50 inches, gentlemen riders up, maximum weight 50 kilos. I will guarantee that the last named will produce just as good riding as the others and a great deal more interest and fun.

As regards the complaint of "One who has sweated and won't again", allow me to point out to this gentleman that no aspirant to sporting honours can expect to win them without a fair amount of self-sacrifice.

Is he aware, when he talks about prejudice to health, that one of the pluckiest and most remarkable men ever seen—Tom Sayers, to wit—weighed out of training some 13 stone or thereabouts; nevertheless, on the best authority, he fought better at 10st. 7lbs. than he did at 10st. 10lbs., the latter being his weight when he faced the famous Jack Heenan, at 14 stone, for over two hours and a half, during the greater part of which time he was suffering from a rupture of one of the small bones of his right arm. I think this ought to be a proof that reduction of weight does not necessarily represent a corresponding reduction of health, strength, pluck, or stamina.

I remain, dear Sir,
Yours faithfully,
Referee.

LADIES' CLUB.

Buenos Ayres,
January 26, 1891.

To the Editor of the STANDARD.

Dear Sir,

In Sunday's STANDARD I read with pleasure that something is being done to enable ladies to have some place of retirement in our city; it would be a pity to throw cold water on the first attempt, yet the ideas expressed in the circular appear rather extravagant, especially at the present time.

The idea, it seems, is to take a house furnish and start as a club, the expenses of which, I think, may deter many from joining. Ladies neither could nor would use the premises in the same manner as gentlemen do their clubs. I have no doubt many will say that in England a Ladies' Club pays, but there the expenses are much less; and, what is a greater guarantee, a settled community, whereas here we certainly have a proportion of families settled for good, but a very large proportion who are not so, and these members suddenly leaving would cause a larger expenditure on the remaining ones. This has occurred in older clubs heretofore. Would it not be better to commence in a quieter way? Say, take two or three rooms, have them properly furnished and with service always on hand, so that light refreshments could be served; the expense of this would be nil in comparison to what is proposed, and the object certainly as well attained, and consequently the subscription in the reach of many more.

I am sure in the radius of two or three squares from the Plaza Victoria, where shopping is generally done, some such accommodation could be found at a moderate rent and which would be better than a house situated in a part of the town where shopping is not general, and on the road to no particular railway or tram; the members thus would not have to go out of their way.

When one begins to calculate the cost of furnishing, rent, taxes, service, etc., of a house, the cost would not be a small item, and the premises would only be used occasionally by the members for a few hours of the day, rarely early in the morning or late at night; thus a few rooms might easily supply the much felt want.

Supposing sufficient members not coming forward, the above scheme would probably take.

Yours truly,
A Well-Wisher.

LA PLATENSE.

Buenos Aires, Jan. 26th, 1891.

To the Editor of the STANDARD

Dear Sir,

The extraordinary statements in your issue of yesterday concerning La Platense are so misleading that they cannot be allowed to pass unchallenged. The figures given, with the trifling exception of an error of £1,000,000 in the addition, are correct, but their application is altogether mistaken. It is true, according to the report issued to shareholders, that the different acquisitions by the Platense cost £1,121,433, and that this sum was partly met by spare capital £519 ·50 and debentures £311,490; but by what stretch of financial imagination can the balance, which represents cash disbursements, be said to be irrecoverably swamped? The outstandings of £95,000, which, according to the same report, are coal and stores at Buenos Aires, can these be said to be swamped also? The only figure that can be so termed is the loss in working of the *first* two years (this very important word *first* is omitted in your statement), namely, £93,356, and which was due to the disastrous competition that existed at the time. Had the Platense been in the flattering position described as a kettle of the most deplorable fish, etc., etc., how was it that the Directors in Glasgow were able to declare a 5 o/o dividend for the year 1889? The half million of money which is said to have disappeared simply represents advances made by financial houses at home, and how far these are recoverable the liquidation now in course of progress will make clear.

A Shareholder.

Railway Items.

The Inspector General has finished his monthly railway report from which we extract as follows:—

Villa Mercedes-Rioja Railway—Cubic thrown up in 1st section 359,253 metres; 85 kilometres of rail laid.

Villa Maria-Rufino Railway—The contractors are actively pushing forward the works of the second section, Carlota-Rufino.

Nanducito-Presidencia Roca—Works at a stand-still.

Sunchales-Tucuman — Rails reach kil. 603, on the banks of the Rio Sala; 730 men employed. The bridge across the Rio Dulce is finished.

San Cristobal-Tucuman — Earthworks reach kil. 162, and rails are laid as far as kil. 142.

North East Argentine—Cubic thrown up 6,700,000 metres; 350 kilometres of rails have been laid; 2,500 men employed.

We take the following from a Montevidean contemporary—

"The train conveying the Government Inspector and the manager, engineer, etc., of the Central Uruguay Railway, for the inspection of the second section of the Eastern Extension between San Ramon and Reboledo, and the second section of the Northern Extension between Achar and Piedra Sola, left the Central Railway station at five a.m., on Wednesday last, and did the round trip of 1032 kilometres, including stoppages, in forty-eight hours, returning to the starting point by five a.m. on Friday morning. No better proof could be given of the excellent condition of the track and the solidity of the extension works, as at times a speed of fifty kilometres an hour was attained. The official authorisation to open the new sections to traffic is expected in a day or two.

The kilometrage of the North Argentine last month was 60,557.

EDITOR'S TABLE.

The Clerk of the Weather played a disgraceful trick on panting, perspiring and parboiled humanity yesterday. Shortly before noon the Southern sky looked like a deluge, a dust storm and a tornado in ten minutes. Windows were closed hurriedly and other precautions taken for the expected emergency, when, presto! in five minutes the wind changed, and off it went with the dust and rain to Banda Oriental. It was a shocking "sell."

Our colleague *El Nacional* came to the front yesterday with a capital article on the candidates for the Presidency which had more salt than printing ink in it. Our colleague touches up all the candidates as being too old.

and our colleague adds: "Luckily Velez Sarsfield, Felix Frias, Sarmiento and Alberdi are dead or we should have them also figuring as candidates." Stick to it colleague.

Our London exchanges by yesterday's mail are up to 5th inst. The principal items of news are that Lord Salisbury has telegraphed to the Governor General of Canada, instructing him to resist the claims of the United States in regard to the Behring Sea difficulty; that Mr A Balfour has started a subscription for the relief of the poor in the West of Ireland, and that the Fifth Avenue Theatre, New York, for which the "slim Sarah" had been contracted for next month, was burned to the ground. Loss $250,000.

An evening contemporary says that land is now 200 per cent *under* its real value! That's it colleague; worth exactly half nothing. Bravo! Bis!

There was another big and fashionable crowd at the Tigre Hotel on Sunday. The menu and the music were both tiptop.

The Cedula question is going to the Supreme Federal Court, the only proper place to settle it finally. This "cause celebre" must affect all financial arrangements in Europe, as the result is a foregone conclusion as far as the law is concerned.

The crush at the San Martin Theatre becomes greater daily. On Saturday night it was so great that people were standing on each other's heads, and on Sunday the manager had to call on the police to aid him in keeping back the crowd who were too late to procure seats. It is the biggest novelty that Buenos Aires has yet seen.

Messrs. Jacobsen and Co. have now on sale Hossfeld's Method for learning English, by T. E. Gurrin. We recommend it to our friends of all other nationalities who wish to learn Shakespeare's tongue.

"On dit" that the proposed loan of three millions from the National Bank to set the Santa Fe Bank on its legs again has fallen through.

The Lord Mayor should attend to the ominous growl of the citisens, now rising to a high pitch, at the non enforcement of the law that orders meat to be sold by *weight*, and the price to be posted up at every stall. The unfortunate people cannot get even the smallest piece of meat at a fair price so long as the butchers are allowed to sell by the joint, in defiance of the law. Sending a dozen of them to jail for six months would soon bring about a permanent reform and general compliance with the law.

The following are the names of some of the newest American publications received by Mr. L. They were treated to a revolutionary scare in Rosario on Sunday afternoon, and rumour ran that the Civicos and the police were engaged in mortal combat. It turned out, however, to be merely a brawl amongst the police themselves.

The biggest blaze in Montevideo for some time was that on Saturday night in a liquor factory next the Campos and Linares barraca. Both were reduced to ashes, and the loss is $95,000. Nobody hurt. As each hogshead of spirits of wine burst, the report was like the discharge of a 300 lb. gun, and shook the whole town.

Advices from Bahia Blanca report that a German ship suddenly foundered while entering that port on Friday last. It is said that the captain and crew managed to save themselves in the boats.

Carnival in Montevideo this year will be rather damp, as the police have most unwisely allowed the use of that wretched relic of vulgarity, the "pomito." The doctors and undertakers, if not un Christian enough to rub their hands in glee, are certainly not crying at the prospect of all the chills and chest diseases that will have to be dealt with when the orgy is over.

The decree of the Minister of the Interior declaring lapsed, null and void all the land concessions for colonies etc. the terms of which have not been complied with has given general satisfaction. An enormous area of valuable land will return to the State. This is one oasis in the sea of crisis troubles.

President Pellegrini paid a flying visit to Mar del Plata on Saturday and returned yesterday.

The Italian ball-players have challenged the Spaniards to play them a game for the benefit of the Cordoba sufferers. A Spanish colleague says the Ligurians are certain to be beaten into a cocked hat. It is dangerous to despise an antagonist, or to shout before one emerges from the wood.

The "isoca" insect is beginning to play havoc with the maize at Chivilcoy. This pest is peculiarly fond of maize and does as much mischief as the locust when it once gets a start.

Sunday's play at the Fronton B. Ayres was marked by such violent changes in the course of the game that the excitement ran to fever pitch, causing at the close a rather unpleasant demonstration against one of the players; whether this was or was not merited it would be difficult to decide, but it may safely be said that Samperio's play was in the latter two thirds of the game far from brilliant, though perhaps fairly on the average of his capabilities. The first match, Uranga and Iturrioz v. Zurdo and Araquistain, was considered the safe thing for the former that it eventually proved, as they won easily in spite of some really fine play of the Zurdo, who did all in his power to supply the lack of strength of his partner. Then came the pairs quiniela won by Embil and Iturrioz after some exciting alternatives, several of the pairs having succeeded in reaching the penultimate ace, and immediately afterwards the game of the day, Portal and Samperio serving from 6½ against Muchacho and Tandilero serving from 6. At the start the betting was even money, Portal having the call. He began well, serving brilliantly and volleying so hard that Tandilero was soon all at sea and the Muchacho a mere spectator. Ace after ace was put on by Portal with a tenacious steadiness that alarmed the backers of the Muchacho, who saw with despair the score soon standing at 30 Portal to 14 Muchacho, and this, in spite of three fine "entradas" of the Muchacho, who was but miserably helped by his partner. Then came the change. The next phase of the game was thirty-two to eighteen, then thirty-three to twenty-eight, followed by a still more irresistible "entrada" of the Muchacho, who, catching his opponents at thirty-three went on ahead and put his score at thirty-eight to thirty-four and forty-two to thirty-six. Then came another change. Portal pulled himself together for the final spurt, and playing brilliantly, scored four aces in succession. The end was, however, at hand, as the Muchacho then ran right out, winning a most exceptionally exciting game by sheer pluck and hard play. It was one of the most exciting games ever played in the Fronton, in spite of a tame finish. Pedros won the 1st "quiniela"

The *Argentine News* discloses the painful fact that ninety nine per cent of the beggars in Rosario are English-speaking.

The grateful news that the mighty Parana is rising and the innumerable vessels stuck in the mud getting afloat again was announced yesterday.

The City Fathers did well on Saturday in throwing out the proposal to remove all the human remains from the Southern Cemetery to the Chacarita. Some of our ediles have quite a mania for changing the names of streets and human remains from post to pillar and pillar to post, without rhyme or reason.

The old Gas Company will now be able to pose in the enviable position of "a public benefactor." It is going to reduce the price of gas from Sunday next. Bravo! "Gracias."

Necessity is the mother of invention. The Argentine sportsmen lost tens of thousands of dollars on the recent International race there; and our M.V.English colleague proposes, as there is no chance of a loan from Brazil, or anywhere else under the sun, moon or stars, to have an International every week, beat the Argentine horses, and thus get a forced contribution from Argentine pockets on which there will be neither interest nor amortization to pay. It is a simple plan, and quite as sound as most of the measures proposed as a cure for the crisis by the financial medicine men on both sides of the river.

A leading morning contemporary has arrived at a conclusion which we jumped at years ago, viz., that the procession of high life carriages at Palermo every Sunday is about the most dismally dull thing on earth. Our colleague compares it to the performance in ancient Athens of one of the tragedies of Euripides without the chorus—the people. At night, the Park is so wretchedly lighted that one might as well take a drive in the Shades, and it is impossible to distinguish a pretty girl from her grandmother.

The new Historical Museum at 330 Calle Moreno will be opened to the public on Sunday next.

Another scuffle, in which an opposition editor had his head considerably damaged, is reported from Santiago del Estero.

The new English Book Exchange at 189 Calle Bolivar is just the thing for the crisis, and, is certain to succeed. It is conducted on the same business principles that gave such stunning results to that well-known lamp dealer Aladdin. 'New books for old' is the firm's motto. Novels are the specialty of the new concern.

THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their History is the way that the Old fashioned have been superseded by the more Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" and these again to the "Powders" so we find to-day these latter retiring before the new Paste Dips. Of the many recent experiments we have witnessed in England and the Colonies, the most successful were with an Arsenical Paste, manufactured by Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping abreast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the wool dry and harsh, but leaves it soft and silky, giving a healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbolic it is lighter than the "Powders" and does not so readily settle to the bottom, and for the same reason it is not injurious to the hands. It goes in less space and is a more concentrated form than the "Powders." thus effecting an economy in transport and labour. It costs less, and will mix with any kind of water. In a word, it is the "Powders," cleared of their many inherent defects, with their curative properties and good qualities preserved and increased, Until the manufacturers make some better discovery

Monday, January 26th.

It must be confessed that the week opens on a disturbed market, which gives place to misgivings that matters are not settling down either so quickly or comfortably as was supposed by the optimists a few days ago. The atmosphere seems impregnated with electricity. Every rumour floated touches some delicate point and sets new influences to work, and thus it is that the changes are at once rapid and radical. Gold shot up rapidly to-day to 322, at which it held firm; whilst stocks weakened off sensibly, especially the Cedula issues, which were beared heavily and reflected a general decline. The causes were Dr. Ortiz de Rosas' declarations published by a morning colleague and the news of Mr Anderson's return to the Plate, the latter being much commented on and considered a sure symptom of some change in the wind, given the precipitation of the trip. The feeling is thus decidedly uneasy, which accounts for the depression in affairs, in spite of a lack of any fresh news.

The following is a summary of operations effected this afternoon during the first ring:—

The report and balance sheet of El Ancla, a marine insurance company, was handed round to-day and shows a profit of 70,035 dollars m/n for distribution as dividend and reserve. This leaves the shareholders twenty six and two-thirds per cent on their capital invested.

It is expected that Mr. Anderson embarks to-morrow in the Moselle at Southampton for the River Plate.

Shipping brokers report business looking up and freights improving, due to a great demand for ready tonnage. Twenty-five francs for bales is freely offered, and we believe 30 francs is asked and expected for the Royal mailer Tamar leaving on the 4th February.

Business at the second hour was dull all round. Gold rose to 323, at which some business was done, but closed with sellers at this rate, whilst stocks in general looked very depressed. National Bank Shares dropped to 101.50 and closed at 102, Constructors to 12.50 closing at 12.70, and Catalinas to 18.60 closing at 18.80. Cedulas fared even worse, the I series dropping to 70, L to 50.50, N to 49.80, O to 50 and P to 50.50. A lot of Central Produce Market shares, which are gold, changed hands at 40, which comprised the total business of the hour.

The following is a summary of the business effected in stocks during the second ring:—

National Bank Shares—

January 27th	1100 at 102-101.50-102

Catalinas Moles—

January 27th	9800 at 19-18.60-80

Jan. 28th	I	12,500 at 70
Jan. 27th	L	84,600 at 50.50 40 60-50
Jan. 27th	N	192,500 at 50.20 50.49.80
Jan. 27th	O	48,000 at 50.20-50
Jan. 27th	P	136,000 at 50.60-80-50

In an interview held by a reporter of the *Nacion* with Minister Ortiz de Rosas, the latter complains that the pretensions of the Committee representing the Protesting Cedula holders were too exaggerated to be susceptible even of consideration, as they meant nothing short of the repeal of the 20 ojo tax, with a guarantee of 80 ojo in cash and 20 ojo in bonds at fixed dates. These conditions, according to the Minister, are impossible. The bank can guarantee nothing, as it is entirely dependent on the service of its loans, and will not in future be helped by the Provincial Bank, as was insinuated by the Committee. The Provincial Bank has, in fact, gone too far and done too much already towards helping the Mortgage Bank, and Dr. Ortiz de Rosas declares that he is determined that this shall come to a stop, so that the sooner Cedula holders realise their actual position the better. The Minister added that the guarantee of the province of Buenos Aires, about which so much is said, is purely subsidiary, that is to say it only comes into force once the liquidation of the bank has been effected.

What the Government proposed to the Committee is briefly that the bank shall pay its way as far as possible and give bonds for what is short, these bonds to be amortized by the sale of properties when it shall be deemed advisable. It seems from this that the idea of the Government is to let the Mortgage Bank now stand by itself, either waiting on better times or going into liquidation, according as holders may decide to accept the terms offered or take the matter before the Supreme Court. The critical moment has arrived, and the great meeting to-morrow will decide a question, the moment of which can only be gauged by the immensity of the interests at stake. A meeting of the Committee was held today, and we understand Wednesday was fixed to file the first pleadings in the Supreme Court.

The decree of the National Government declaring null and void all land concessions in which the conditions of same have not been scrupulously adhered to and carried out has burst like a bombshell in concessionaire quarters, since it is no secret that the parties interested in this class of business, relying on the tolerance of the Government, paid little or no attention to the conditions. A report of the lands and colonies' office says that the public land absorbed by these concessions embraces a zone of not less than 6,000 leagues, the greater part of which will go back to the Government again, since the latter has given a peremptory period for the fulfilment of the contracts on expiry, of which a thorough revision of all concessions will be made. It seems that in many cases important industries have been started on these concessions, and the loss to the promoters will be severe if the concessions are annulled. The decree, how-

ever, betrays the inflexible resolve of the Government to put a wholesome check on what has proved in the majority of cases a gross abuse.

Brokers reported exchange very quiet to-day and almost nothing doing. Rates were quoted at 48½d, 5.07.08 fcs. and 4.08-10 marks.

Mr. Frederick Freund was welcomed to-day on his arrival from Asuncion, where he reports affairs very quiet, but the crisis not so bad as here. Mr. Freund, as our readers are aware, formed part of the Pilcomayo Expedition under Engineer Storm and went one hundred leagues up that river and unknown territory; he fixed the boundary lines between the Republic of Paraguay and Argentina. Mr. Freund now leaves for Rio, where we wish him the same success as has attended all his undertakings here and in Paraguay. His father, Don Pedro Freund, is still in Asuncion engaged in important surveying enterprises. The difference between the Argentine and Paraguayan currency is about 8 to 10 o|o.

We hear from Viedma that Col. Berrante has asked the Minister of Public Instruction to investigate as soon as possible the serious charges made against the Juez Letrado there.

The Finance Minister has fixed 310 as the rate for payment of gold duties up to and inclusive of Thursday next.

Following up our remarks on the report and balance-sheet of the Spanish Bank handed round on Saturday we note that of the 539,738 dollars net profit on the six months' working to Dec. 31st 455,049 were appropriated for the dividend and Reserve Fund, the latter absorbing 36,410 dollars and standing now at 209,092. The Directors observed that they had judged it advisable to forsake their practice of keeping this reserve in gold for reasons too obvious to need recapitulation. The cash on hand figures at 4,211,479 dollars paper and 54,624 dollars gold, the deposits being 10,209,877 dols. paper and 150,786 gold, whilst there are 'conformes' in circulation to amount of 4,200 gold dollars. The dividend has been at the rate of 7 o/o on the paid up shares 4½ o/o on the 80 o/o scrip and 3 1/3 o/o on the 60 o/o scrip, the founders receiving 27,296, the board 18,202 dollars and the Spanish Hospital 4,530 m/n.

Dr. Peyret, the Commercial Judge, has granted "matricula de comerciante" to Sr. Gustavus A. Manigot, and "matricula de martillero" to Sr. Salvador Alsina. The same judge has registered the partnership contract of Sres. Balleto and Bidart as consignees and produce brokers.

Dr. Garay, Civil Judge of 1st Instance, has obtained leave of absence for 15 days on account of ill health. He started for Mar del Plata on Sunday, and, during his brief absence, his duties will be fulfilled by Dr. Pizarro.

The Minister of Foreign Affairs has asked the Minister of the Interior to issue an order to the governors and officers of the National Territories and Provinces on the Chilian frontier to prevent the passage of arms and ammunition to Chile.

Messrs. Luis Godoy sold by auction yesterday the following properties:—

Land in Calle Europa No. 1286 for 12,000 m|n, or 25 m|n per sq. yard; buyer Don Enrique Darrassec.

Land in Calle Bollini, corner of Calle 65 E, at 5.15 m|n per square yard; buyer Juan Pisani.

Small house in Calle Billinghurst, between 1a and 2a Cuyo, for 8000 m|n; buyer Don A. Passia.

Various lots of land in Calles Santa-Fe, Calle de Oro and 59 A, alongside the site of the Exposicion Rural at 7, 8 and 8.50 m|n per square vara; buyers Sres R. Castilla, Iturriaga, Bernemort, J S Ortiz and others.

Land in Calle 24 de Noviembre, between Constitucion and Pavon, at 3.50 m|n per square yard; buyer Don Julian Sillani.

Land in Calle Constitucion, between 24 de Noviembre and Soria, at 3.70 m|n per square yard; buyer Francisco di Fati.

Small house in Calle 2a Caridad, between Constitucion and Pavon, for 4100 m|n; buyer Melchora F de Piutau.

Fifty lots of land in Lanus, fronting Villa Obrera, at 10, 12, 15 and 25 cents per square yard; buyers all Italian workmen.

Messrs. G. Kelsey and Co. sold to-day at the Constitucion Market 10,000 kilos of superior Lincoln wool at 11 dollars per ten kilos.

The Cedula question continues to engross public attention, and the great fall in quotations to-day is a proof of the uneasy feeling that now pervades holders of this stock. Then Mr. Toso's letter to the Government, published yesterday, frankly admitting the complete neglect of Centro-Agricola concessionaires to comply with their obligations, intensifies this feeling, as it seems it is quite the exception that the quarterly payments on these Centro-Agricola loans are met. Mr. Toso, puzzled what course to take, suggests that in the event of these properties put up at auction not fetching the amount of the mortgage, they should be taken over by the bank and let for a fixed term of years, but in bulk, as it would be impossible for the bank to think of securing tenants for the Chacras simply. Meantime there is nothing new about the conversion, and the situation is getting more strained every day.

An evening colleague, dwelling on the falling through of the scheme, imputes the whole blame to the attitude of the Protesting Holders, adding that the latter may hold themselves responsible for all the difficulties and trials that poor families, whole whose resources were invested in Cedulas, will now have to suffer, since it is only too palpable that the bank is on its last legs, and may at any moment take a step such as going into liquidation, which would precipitate the crisis. Our colleague declares that it was the intention of the Government, once the conversion was a "fait accompli," to reduce the tax from 20 o|o to 5 o|o.

The *Mexican Financier* casts the financial horoscope of Brazil in the following rather gloomy lines. As a matter of course, this country is the standard warning to which the attention of all others is directed:—

"A correspondent in Rio Janeiro informs us that notwithstanding the great activity of business there at present a crash may be expected in a year's time. The same speculative craze which has done such tremendous damage in the Argentine Republic has seized on the Brazilians, and hundreds of new companies are being organized for every imaginable purpose, and all with fictitious capital. Late Rio Janeiro papers take the same tone, our sensible contemporary the *News* speaking plainly regarding the financial situation. The Government of Dom Pedro did not suit the politicians who plotted its overthrow, but it is not yet seen that they have affected any improvement. Brazil is sending a fleet of naval vessels to New York in quite the same magnificent way as if she were a rich nation and entirely independent of European bankers. We fancy the dance will go on in the same giddy fashion as in Argentina till, some fine day, the world will be startled by a "crac" in Rio Janeiro, and European money lenders will again wonder why they did not see what was coming."

A letter from London says:—

"Mexico is in favor here, for its Government appears honest and indisposed to speculative ventures. I hear, through good sources, discouraging financial news from Chile; the Argentines are by no means on solid ground again, and Brazil is going a terribly rapid gait. Another South American "crac," or two or three of them, is to be anticipated."

Messrs. Agar Cross & Co.

Dear Sirs,

I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.

Compania Primitiva
DE
Gas de Buenos Aires.

Rebaja de Precios.

En virtud de las reformas realizadas en la fabrica de esta compañia, que le permiten elaborar una contidad mucho mayor de gas de la que antes producio, el directorio ha resuelto hasta nuevo aviso fijar el precio del gas del modo siguiente que regira desde el 1° de Febrero proximo.

Por metro cubico $0-225.

Por impuesto municipal $0-004—Son 0 23 pesos el metro cubico.

Para consumidores de cierta importancia haremos un descuento en relacion al consumo.

No duda el directorio que dada la calidad del gas que fabrica esta compañia, cuya intensidad de luz es siempre superior al tipo oficial de 20 velas, el publico se penetrara de la gran ventaja que tiene en usarlo.

Si hasta ahora hemos cobrado el precio de 25 centavos por metro cubico, es porque nuestros elementos de produccion no nos permitian dar abasto a todos los pedidos; hoy, a pesar de las malas circunstancias por el alto precio del oro, lo expenderemos a 23 centavos incluso en este precio el impuesto municipal, contando con que el aumento de consumo nos compensara la rebaja que hacemos en favor de nuestros numerosos clientes

Dr. J. Collis Browne's CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE!

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Cout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Januar 5 1880. To J. T. Davenprt, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native dazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Dollis Browne's Chlorodyne in Diarrhoea and Dysentery, Sapasms, Crampas, Neuralgia, the Vomitng of Pregnancy, and as a general sedative that have occurred under our personal observation during many years, In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of he Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists

Caution,—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defedant Freeman was deliberately untrue, which he regrétted to say, had been sworn to,—See The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d,. and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Keating's Cough Lozenges.

"94, Commercial Road, Peckham, July 12, 1889.

"Dear Sir,—I am a poor hand at expressing my feelings on paper, but I should like to thank you, for your lozenges have done wonders for me in relieving my terrible cough, Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive and getting on) well-performed at St. Bartholomew's Hospital for abduct, or paralysis of the vocal chords, no one could possibly have had a more violent cough; indeed it was so bad at times that it quite exhausted me. The mucus also, which was very copious and hard has been softened, and I have been able to get rid of it without difficulty,—I am, sirs, yours truly,

"Mr. T. Keating," — "J. HILL.

Medical Note.

The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is understated. The operation was a specially severe one, and was performed by the specialist. Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit, although from the nature of the case the throat irritation is intense. Mr. Hill kindly allows any reference to be made to him.
